THE PRICES THAT WE HAVE MADE IN THIS BOOK ARE SO LOW AND
THIS CATALOGUE SO DIFFERENT FROM ANY OTHER EVER PUBLISHED
THAT WE FEEL SURE IT WILL BE READ FROM COVER TO COVER

A New Kind of Catalogue The distribu-tion of this catalogue will catalogue will open the greatest Special Bargain Sale in the history of our business and will offer some of the greatest bargains in Roses, Bedding Plants, etc., that have been presented this season. Most floral catalogues are very much alike. This one is entirely different. The flowers are illustrated in their natural colors and offered in collections which makes ordering extremely simple.

Why We Can Save You Money

Why We Can Save You Money

All of our goods are grown in large quantities for wholesale purposes. Our retail prices are based on our large production, giving our retail customers an easily appreciated advantage. By adopting the plan, special offers and collections, we reduce our selling expense to a minimum and as our sales to you are by mail, execution of the orders are attended with comparatively little expense.

McGregor Quality care of the plants. etc., maintenance of "McGregor Quality," and giving you lower prices than those for which you can buy corresponding quality from a retail dealer.

How-to Order the mames of the plants given in the give the number of the "Special Offers or collections. Simply give the number of the "Special Offers" or "Collection." Be sure to enclose the correct amount, as that will facilitate the filling of your order. It is best to send an express money order or Postoffice order, but if not, you may send check. If you send coin, send it in a registered letter. We will be responsible for it in this way. Postage stamps will be accepted for fractional parts of a dollar or where post-office orders cannot be had, provided a two-cent stamp extra is sent with every remittance.

Order Early

If you do not want the plants at the time you order them, because it is too cold, or you are not ready for them, simply state when you want the goods shipped. We will set aside your plants and take

Our Guarantee

These low prices are in no sense any indication that the goods are not high grade. They are exactly the same plants for which you pay a higher price when selected from regular floral catalogues. We guarantee all plants that we send out to be true to name, healthy, well rooted and in good growing condition when they leave our shipping room. Not a plant nor a collection can fail to give the greatest results if given reasonable care and attention. Most failures with plants, bulbs and seeds are due to soil conditions, unfavorable weather and other causes which we cannot control and against which we cannot control and agains

ters in the United States for the shipping of plants by mail and express, and is the greatest Rose producing center in the world. It is centrally located geographically, with five express companies—American, Adams, United States Wells Fargo and Pacific, and has unequaled facilities for receiving and shipping orders and procuring he lowest rates to all parts of the country. This gives you the assurance of getting your order in the quickest possible time, and enables us to guarantee delivery at the minimum rate through one company, for where all these companies are not represented there must be an increase in express rates. Within twenty-four hours we can reach two-thirds of the population of the United States.

Plants by Mail

All stock listed in our Catalogue, unless noted, is offered at prices marked, by mail, postpaid, and we deliver all such items free of all expense to any postoffice in the United States.

Gives Lowest Express Springfield

Rates Only where all the Express Companies are represented, as at Springfield, can the lowest Express rates be given.

Parcels Post of mailable plants, bulbs and seeds has been four pounds. The newly established system of Parcels Post simply gives the added privilege of transferring through the mails packages of mailable plants, bulbs, seeds, etc., of weight up to eleven pounds. Do not construct this to mean however, that the increased size of package allows carrying express size plants. It only permits of sending you larger orders of mailable plants.

Shall We Remove Soil from Roots and Ship Prepaid? Read these Conditions Carefully

Removing the soil, or ball of earth, from the roots of the plants places the shipping of plants on a mail order basis, and inasmuch as we pay postage to all points of the United States and its possessions, we are willing to prepay the express charges on orders amounting to \$3.00 or more when shipped in this way, except, however, on orders for such plants as Cycas, Palms, Ficus, Azaleas, Araucarias, Camellias, Rhododendrons, Banana Plants, large Lemons or other large decorative plants; Dahlias, Caladiums, Peonies, large Shrubs, Nursery Stock, or vegetable seeds in pints and quarts, and garden requisites. Such plants as these must be shipped without the root being disturbed if one must expect the best results from them. The prepay offer does apply, however, on such plants as Roses, Begonias, Chrysanthemums, Carnations, Cannas and ornamental Ferns. Geraniums, Puchsias, Lillies, mailing size Shrubs, hardy Vines, some of the hardy Perennials and miscellaneous Bedding Plants, These plants can be shipped to the most far-away sections of our country with the soil removed, and transplanted safely.

The National Rose of America

#### THE AMERICAN BEAUTY The Greatest of Them All

The Greatest of Them All

A hardy Rose of the largest size, having the everblooming qualities of the Tea Rose with the delicious odor of the Damask or Moss Rose, and equally valuable for winter or summer flowering. The flowers are so eagerly sought that they sell in the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. In color it is a deep, brilliant rosy-carmine, shaded towards the center with rich carmine-crimson. The back of the outer petals take the coloring of lighter dull carmine. It should be protected outdoors in the winter. Sold under positive guarantee as to being true to name.

## White Maman Cochet

"Has the vigor of an oak, being hardy everywhere."

This most superb variety is snowy-white, sometimes faintly tinged with the slightest suggestion of pale blush. With the same freedom of bloom, magnificent form of buds and flowers and hardiness it stands at the head of the list as the best White Rose for open-ground culture. It has the vigor of an oak, being hardy everywhere. Price, 13 cents each, 4 for 48 cents, 12 for 98 cents, postpaid; two-year-old plants, 28 cents each, 4 for 98 cents, 12 for \$2.48.

#### Yellow Maman Cochet

"Best hardy ever-blooming yellow Rose in existence."

This variety is absolutely the best hardy ever-blooming yellow Rose in existence. In the open ground it is superb—a typical Cochet Rose with its gracefully molded buds, magnificent open flowers, stiff strong stems, heavy foliage and with the vigor of growth and blooming capacity that has made the Cochet Rose the best of its class and color. Price, strong one-year-old plants, 18 cents each, 3 for 48 cents, 12 for 98 cents, postpaid; two-year-old plants, 33 cents each, 6 for \$1.73, 12 for \$2.98.

## Pink Maman Cochet

"Buds beautiful; flowers superb; perfectly hardy."

Such beauty and exquisite form as is possessed by this variety is well nigh marvelous. The buds are beautiful, large, full and firm and elegantly pointed; as they expand they show great depth and richness, sometimes measuring two and one-half inches from base to tip. Flowers superb when open, extra large, perfectly double and of splendid substance. The color is clear, rich pink, changing to silvery-rose. Price, 13 cents each, 4 for 48 cents, 12 for 98 cents, postpaid; two-year-old plants, 28 cents each, 4 for 98 cents, 12 for \$2.48.

#### Red Maman Cochet

"Better than American Beauty and without a peer."

Grows in almost any soil or situation and produces its superations in amazing profusion on long, strong shoots. For vigorous growth and freedom of bloom better than American Beauty, and without a peer. The flowers are full and perfectly double, the buds beautifully made, long and pointed. Color warm rose-crimson. Hardy everywhere. Price, strong one-year-old plants, 13 cents each, 4 for 48 cents, 12 for \$1.23, postpaid; two-year-old plants, 33 cents each, 12 for \$2.98.

#### White Hermosa

"We counted on one plant 143 buds and flowers."

This is a lovely white Rose, a pure Tea, but a foreign seedling; the freest flowering white rose we have seen. For a pot plant it cannot be excelled as it possesses every good quality of a pot Rose. We counted on one plant 143 buds and flowers, and the plant was only nine months old. Try it. Price, 8 cents each, 3 for 23 cents, 12 for 88 cents; two-year plants, 23 cents each, 3 for 63 cents, 12 for \$2.48.

#### Yellow Hermosa

"No Rose like it for freedom of bloom."

No Rose like it for freedom of bloom."

No Rose like it for freedom of bloom. It is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the Yellow Hermosa from its free-flowering character. We do not know of any Rose that will give the satisfaction that this variety will and we heartily recommend it. Price, 13 cents each, 3 for 38 cents, 12 for \$1.23, postpaid; two-year plants, 28 cents each, 3 for 78 cents, 12 for \$2.73.

## Red Hermosa

"Unmatched in its velvety richness."

The flowers of this variety are the richest red of any Rose in our vast collection; a single bud or blossom will catch the eye at a great distance so brilliant is the color. Indeed, it is unmatched in its as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking her what Rose this is. Price, 13 cents each, 3 for 38 cents, 12 for \$1.23, postpaid; large two-year-old plants, 28 cents each, 3 for 78 cents, 12 for \$2.73.

## Crimson Hermosa

"The very best of all Roses for bedding."

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a flery scarlet, a color seldom seem in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. None better. Try it. Price, 8 cents each, 3 for 23 cents, 12 for 88 cents; large two-year-old plants, 23 cents each, 3 for 63 cents, 12 for \$2.48.

SPECIAL No. 4171 One each of the five Hermosa Roses, 1-year plants, postpaid, for 58c, 3 collections for \$1.68; one each of the five Hermosa Roses, 2-year plants, for \$1.23, 3 collections for \$3.48.

## THE FISH TAIL FERN

#### (Nephrolepis Davallioides Furcans)

This is a grand Fern, entirely distinct from any of the other varieties of Nephrolepis. Throughout the South, and especially at New Orleans, this Fern takes precedence over all others. The ends of each pinna are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant of any of the Nephrolepis. Grand for house culture. Nice young plants, 18 cents each.

#### The New Fern "Roosevelt"

Introduced as "The reatest Fern of the Greatest Fern of the Age."—In general characteristics it resembles the Boston Fern, but acteristics it resembles the Boston Fern, but with two points of great excellence over that variety. First, it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other Fern. It is highly recommended. recommended. #### Hardy Ferns

Hardy Ferns
These graceful and universally popular plants are of easy culture and afford a wide range of possibilities. As shady nook, where the soil is moist and the drainage good, will prove an ideal location, especially if a liberal amount of leaf mold or woods earth is available; and better still if rocks and stumps may unite in breaking the monotony of the ground's surface. Under such conditions Ferns require very little attention and amply repay in satisfaction and genuine pleasure. There are many places more or less shut out from the sunlight that may be converted into veritable beauty spots by clumps of Ferns of various kinds and their intrinsic ornamental qualities are well worthy of our attention.

# SPIRAL LEAF REX BEGONIA Countess Louise Erdody

The leaf has a metallic luster, dark-silvery in the center; shading to copperyrose toward the margin. The striking peculiarity which distinguishes it from all
other Begonias consists in the fact that the two lobes at the base of the leaf do
not grow side by side, but one of them winds in a spiral-like way until in a full
grown leaf there are four of these twists lying on top of the leaf nearly two inches
high. Price, 24 cents each; 3 for 69

# Large Leaved Rex or Painted Leaf Begonias

Rex Begonias are grown exclusively for the great beauty of their foliage, which is large and beautifully variegated a peculiar silvery-metallic gloss. They

make excellent pot plants, and are also effective for budding in shady corners. We make a specialty of this marvelous family of plants. They require light

soil compound of rich loam, loose woods earth and sharp sand. They like a moist, warm atmosphere, and should be kept shaded during the summer. Do not allow the sun to strike the leaves when wet, and do not overwater the plants.

#### LOUISE CLOSSON

One of the richest and most beautiful of the Rex family. The coloring is simply magnificent, center of leaf deep bronze with broad band of silvery-rose, edged bronze, giving the whole a purplish tint. The oddest color of all the Rex. Price, 19 cents each; three for 49 cents.

#### REX BEGONIA, LOUIS CHRETIEN

Louis Chretien made a decided sensation among Begonia growers a few years ago. The zone of rosy hellotrope is broad and very highly colored, the habit and freedom of growth exceptionally good, while the metallic luster is very bright. Begonia lovers looking for a first-class novelty to add to their collections will find this variety extra fine in every particular. Price, 24 cents each; 3 for 62 cents.

#### BEGONIA RUTH FINDLAY

One of the most distinct and striking of all Rex Begonias, and one of the easiest to grow. The plant is of bushy habit, and the leaves are of fair size—most of the leaf being a silver color spotted and streaked with dark green on the edges. This variety bears the metallic luster of other Begonias, and, at the same time, shows the coral-red effect when the light shines through the leaves. Price, 14 cents each; 3 for 39 cents.

#### KING OF REX

One of the most effective of its class, though the oldest variety. Of a beautiful metallic luster, center and edge a soft velvety green with a broad silver zone terminating at the point. The foliage of this Begonia on well-grown specimens is so massive and the growth so majestic as to awe the beholder. Indeed, we doubt if we have a handsomer plant than this. It is of the very easiest culture. Anyone can succeed with it. Price, 19 cents each; three for 49 cents.

# McGregor's New and Striking Fancy Roses

Notwithstanding the great number of varieties of roses already introduced, hybridization has, during the last few years, been more carefully studied than ever before and the results enable us to offer a collection of fancy roses which will stand without equal. The average garden enthusiast nurses the delusion that roses run pretty much alike in color while the fact is that it is not difficult

and from which the common rose color would be entirely excluded. It is the color of a rose that makes its appeal universal; even fragrance is placed to one side and the form is of secondary importance. Lovers of roses should class and place their orders early in the season, for the charm of the new and distinct rose is to have it while it is new.

# GREGOR BROS. CO. SPRINGFIELD. OHIO. U.S.A.

Chrysanthemums are of Japanese and Chinese origin. Through the enterprise of American growers, who have given them time and devotion, they have, as if by magic, so developed as to give them the unquestioned title of "Queen of Autumn Flowers." For massive blooms, grandeur of color, ease of culture and certainty of flower, either in the open ground or in pots, there are no plants that will surpass them, and but few their equal. The endeavor of nearly all growers has been, in ate years, to introduce varieties which will produce the largest and finest blooms for exhibition purposes, and it is of these varieties that our list is made up. Every sort we offer, if well grown, should prove a prize winner.

Beautiful Palms and Decorative

**Plants** 

The bold, majestic, graceful foliage of Palms lends a grandeur and magnificence that cannot be obtained by any other class of plants, and there is nothing so satisfactory for home decoration. Anyone can succeed with the varieties offered on these pages.

(Livistona Rotundifolia.)

A miniature fan-leaf palm A miniature fan-leaf palm which in a finished specimen makes almost a globular plant. One of the most attractive palms we have. Nice strong plants showing character leaves. 48 cents each, by express only. (Add 10 cents if by mail.)

Dracena Terminalis, 23-48c.

#### Dracena Terminalis

A superb species, with rich, crimson foliage, so marked with carmine-pink and creamy-white that words cannot describe the exquisite coloring. It is a rapid grower, and for room adornment or as a vase plant for outdoor use it is indispensable. Price, fine plants, 23 cents each; larger plants, 48 cents.

# Screw Pine

Phoenix Roebelini (The Ostrich Plume Palm)

This beautiful Palm has the grace and lightness of Cocos Weddelliana, but is more robust in growth, foliage gracefully curved, spreading in habit. It will be most popular for house decoration. Has graceful curving leaves with very narrow dark green pinnae giving it a lightness and airiness not surpassed. At the same time it is as hardy as the Kentia Palm, succeeding admirably as a house plant. Fine plants, 48 and 73 cents; larger plants, specimens, \$1.23, \$1.98 and \$2.48 (by express only).

ROEBELINI

(Pandanus Utilis.)

As an ornament for the window, its As an ornament for the window, its glossy dark green, serrated foliage renders it unusually attractive. It is also largely used to decorate the halls in our private residences, and shows grandly on the lawn when grown to sufficient size: Price, nice plants, 23 cents and 48 cents each.

Ostrich Plume Palm

48c, 73c, \$1.23, \$1.98 and \$2.48.

Sago Palm

(Cycas Revoluta.)

Makes a magnificent specimen plant for the lawn or house. Their heavy, glossy, deep green fronds resist alike the gas, dust and cold, to which decorative plants are frequently exposed.

Price, nice, small, shapely plants, 73c; 6 to 8 leaves, 98c each; 8 to 10 leaves, \$1.48; 10 to 12 leaves, \$1.98. Bulbs increase in size each year and leaves double in size and number. Sent by express only.

# Rubber Plant

(Ficus Elastica Belgica.)

The Ficus is generally considered one of the most satisfactory, and perhaps the most popular house plants in cultivation. Its wonderfully thick leathery leaves enable it to withstand excessive heat and dryness, while its deep, glossy green foliage always presents a cheerful aspect. It is particularly adapted to house culture.

We offer good strong plants at 33 cents each, postpaid, large specimens by express 48 cents, 73 cents and 98 cents, according to size.

# PLANTS THAT WILL BLOOM AND BLOOM ALL SUMMER

The colored plate of Fuchsias, Petunias, Begonias and Phlox offers a collection of constant blooming plants, rich and gorgeous, yet soft in coloring; varieties of marvelous beauty for the yard and garden. The 20 sorts offered make some of the choicest collections that will be of-

fered this season. They represent wonderful improvements in size, color and beauty of flowers. All are prolific bloomers; vigorous in habit of growth; and, in fact, so easy to grow that all persons should succeed with them.

#### McGregor's Constant Blooming HIBISCUS

Hibiscus are of great merit in that they bloom constantly and they have added value of being especially adapted for house plants, blooming just as well indoors as out. Hibiscus permit of being trimmed into large bushy plants or standards and after the first year, make fine specimens which can be kept and used in this manner for several seasons. They can be stored in a protected place where such plants as Hydrangeas, Oleanders, etc., are wintered or can be kept growing through the winter. The collection we offer gives a grand variety of color and makes up a collection of the best varieties offered.

#### McGregor's Double Fringed **PETUNIAS**

For outdoor decoration or for house culture there are few plants which are as effective as the Petunia. They begin to flower early and continue to be a mass of bloom throughout the summer season and up until they are killed by the frost. They are easily cultivated, simply requiring a good soil and sunny location. After devoting a great deal of time on Petunlas, we have succeeded in getting the finest strain or set that we have ever offered. Unsurpassed in brilliancy of colors and the size of the flowers. They include all the flowers. They include all the flowers that we have carefully selected and the most of them are beautifully fringed.

#### McGregor's Gorgeous Tuberous BEGONIAS

This charming class of Begonias is perhaps the handsomest of all summer-flowering tuberous -rooted plants, and are deserving of much greater popularity. Either as bedding plants or grown in pots, their varied colorings are unique, vivid, and gorgeous. Flowers of the largest tubers are of immense size and great substance. From the first opening flower until frost arrives, they are a brilliant setting for any garden. The buibs we offer are grown by an eminent European bulb specialist, and are all first size list, and are all first size blooming tubers, true to colors and markings, and we guarantee that our customers will be fully satisfied with the results from plantings.

#### McGregor's Mammoth Hardy PHLOX

In the collection below, of selected Phlox, we offer five plants which we believe give as great value in a collection as anything offered in our catalog. Among the hardy plants there is no learny as anything offered in our catalog. Among the hardy plants there is no class excelling Phlox. They succeed in almost any soil and location, giving wonderful flowers through a long season, and will continue to flower through wontime to flower and will continue to flower through many years with no attention. They produce wonderful effects when planted in masses of a single color or when planted in such variety as illustrated on our colored plate. No perennial is more worthy of culture or will produce more satisfactory results. The following collection we highly recommend.

H. C. L., Williamsport, Ill., says: "I certainly can recommend your flowers. Everything I have purchased from you has grown wonderfully. Your Hibiscus are exceptionally beautiful. It would be impossible for me to say too much in regard to them.

The choice of varieties in these sets must be left entirely to us, as we positively cannot afford, at the collection price, to permit customers to name the plants. But all who prefer their own selection of varieties can make them at the prices of single plants, which in all cases accompany the descriptions. These collections are subject to the following conditions: That persons ordering are only to name the number or numbers, designating the collection or collections wanted, as it takes too much valuable time to read long letters giving detailed lists of plants in each collection desired. # THE ME GREGOR BROS. CO. SPRINGFIELD. OHIO. U.S.A.

We have used the greatest care in obtaining our Flower Seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planted may be attributed to the manner in which the seed is sown rather than the lack of germinating power in seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed.

Sowing of Seeds—Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to remain in dry soil.

For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes, in good garden soil. Cover seeds very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to become too dry.

Transplanting of Seedlings—Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be taken in watering seedlings well after planting and to protect from the sun for a few days with light paper.

Selected Flower Seeds

er. Flowers from seed are usually known as annuals, biennials and perennials.

Annuals bloom and ripen seed the first year, and then perish.

Biennials do not generally flower the first year, and are in perfection only one year.

Perennials continue to flower several years in succession. Many of them bloom the first year if sown early.
